

Business and Non-Instructional Operations

**Transportation by Private Vehicles for School**

Unless exceptions are authorized as provided below, the use of private vehicles for the transportation of students is prohibited. Students must be transported by way of contractual arrangements by vehicles for which the safety requirements mandated by state statute for student transportation have been met. Transportation of small groups of students may be provided, under extenuating circumstances, by a staff member. Such transportation must be approved by the Superintendent upon recommendation of the principal.
