

Community Relations

School-Community Associations

The Board of Education considers school-community groups such as Parent-Teacher Associations or Parent-Teacher Organizations to be integral parts of the school community which can promote better educational programs.

The Board of Education encourages active support of and cooperation with school-community associations or organizations by teachers and other employees.

Among the many services which such associations offer, the Board of Education especially endorses support for parent/citizen volunteer programs in our schools.

All programs established by Parent-Teacher Associations and/or Parent-Teacher Organizations are the responsibility of the association and/or organization, and shall not be considered programs established or endorsed by the Board of Education.
