Parent/Guardian Observations and Lunch Visitation

Parent/Guardian Observations

Region 10 encourages parents/guardians and teachers to work in a cooperative spirit. If a parent/guardian would like to observe their child's classroom or other area, the following guidelines should be observed:

1. The parent/guardian needs to notify the building principal if they wish to observe their child's classroom.
2. The principal will schedule an appointment with the classroom teacher and the parent/guardian prior to the observation.
3. The parent/guardian must check in the main office when arriving at school for the observation.
4. The parent/guardian must meet with the teacher and/or administration before the observation to discuss any relevant issues.
5. The observation itself may NOT interfere with classroom instruction or violate the privacy of any other student.
6. After the observation, the parent/guardian should meet with the principal (or assistant) to address any questions regarding the instruction or the child's progress.
7. The principal or his or her designee may refuse a request for a classroom observation if, in his or her opinion or that of his or her designee, the observation will be disruptive of the educational process.
8. Generally, no more than two (2) classroom observations per child, per school year will be permitted. Adjustments to this guideline can be made by the building principal.

Lunch Visits for Grades K-4

In the wake of increasing concerns about school security we regard maintaining a safe environment among our highest priorities. For this reason we have limited parent access to the cafeteria during lunch periods. There are instances where we can make exceptions for a parent/guardian visiting their child/children at lunch.

Special occasions (birthdays, unexpected parent/guardian day off after time away, return from

military service, student is star of the week in his/her class, etc...) are instances where we will grant exceptions from the lunch visiting rule. The parent/guardian in this case can call the assistant principal at their child's school prior to visiting. Upon arrival and signing in at the main office, the parent/guardian will join their child at a separate table for a "quiet" lunch together in the café.

If such an occasion presents itself, please contact your building assistant principal for more information or with questions.
