

Instruction

Comparability of Programs

Services being provided by state and local funds such as Chapter funds are comparable to services being provided in each school attendance area within the district.

Annual records are maintained in the school district to document comparability.

The Board of Education ensures equivalence among schools in:

1. teachers, administrators, and auxiliary personnel
2. provision of curriculum materials and instructional supplies
3. a district wide salary schedule

Policy adopted: April 9, 1990
Policy revised: August 1997
Policy reviewed: July 1, 2009
