Re: Important Weekly Update

Region 10 Community Members,

We continue to prepare for schools to reopen next week. An important part of our reopening plan is the daily screening process for all staff and students. Earlier this week a letter went out to our community with the screening guidelines for symptoms that you should look for prior to sending your child to school. This process is a critical part of our safety plan. We want our schools to stay open but for that to happen we need everyone to take this responsibility seriously. In addition to symptom screening you should also consider whether your child has been exposed to anyone who has been confirmed to have COVID19 in the past 14 days. And finally, if your child has traveled to a location that is on the state's travel advisory list you should follow the directions associated with that travel including quarantining for 14 days when appropriate. For your ease we have attached a document that summarizes all these considerations. This document also contains information from the State of Connecticut regarding several of the most typical scenarios and the steps that should be taken by schools and their community members. Please read this important document carefully and put it someplace where you can refer to it. We can't wait to see all of our children next week and want everyone to stay safe and well.

Howard
