Dear Fifth-Grade Parents:

Regional School District #10 is pleased to announce that we have revised our report card for all students in fifth grade. This new standards-based report card was a collaborative effort among our teachers, parents, district-level coordinators, and school administrators who serve on the Har-Bur Middle School's Mastery-Based Learning Committee. Similar to the revised elementary report cards you experienced last year, the revised report card captures more detailed information regarding your child's progress towards grade-level goals. This new format will better inform you of your child's progress to date on the skills your child is expected to master.

A parent information guide and responses to frequently asked questions regarding a standards-based reporting system are available on the Region 10 website (under the tab Curriculum and Instruction) along with a sample report card and links to the CT Core Standards for your child's grade. Additionally, information will also be available at parent conferences this month.

Please feel free to contact your child's teacher or the middle-school administration if you have any questions regarding your child's educational program.

Sincerely,

Cheri Burke
Director of Student Learning
Regional School District #10
