

Students, staff, and families will engage in digital literacy learning and application through discovery, collaboration, and creation. Accessible and differentiated digital tools and environments for every student will provide transformative, future-ready learning opportunities. Personalized learning for staff and students will strengthen high-quality instruction and provide relevant and engaging learning experiences for all to prepare students for college and career in the 21st Century.

Phased Implementation Approach FOR 1:1 PLD DEVICES

Grades	2016-2017	2017-2018	2018-2019	2019-2020	2020-2021	2021-2022
9-12	PREPARE	PLAN	IMPLEMENT	MONITOR	MONITOR	MONITOR
5-8		PREPARE	PLAN/IMPROVE	IMPROVE	IMPLEMENT	MONITOR
PK-4			PREPARE	PLAN	IMPROVE	MONITOR

PREPARE: Inventory, identify training needs, survey staff, improve infrastructure, investigate devices, explore environments and identify successful practices.

PLAN: Develop proof of concept, identify teacher leaders, begin training, establish protocols and expectations for students, staff, and community

IMPLEMENT: Initiative deployment of 1:1 laptop for each student. Begin new inventory practices, security and student training, clear communication to all involved. Students carry district owned device from school to home.

IMPROVE: Cycle current laptops/desktop computers to improve the availability of technology for all students. Devices do not go home with students however devices are available for all students in school.

MONITOR: Track implementation and adjust plan as necessary, ongoing Professional learning and student training will also be monitored and adjusted.
